TRIBUTE TO TEACHERS..

A teachers is a beacon in the darkness and a hope that gives the students courage and strength to lead their life.

Students can never repay the valuable contribution of their teachers who arouse their hearts with the lights of knowledge by removing all sorts of ignorance.

Teaching is a calling too. And I've always thought that teachers in their way are holy - angels leading their flocks out of the darkness.

Thank 
Teachers...

It is a supreme art of the teacher to awaken joy in creative expression and knowledge.

TRIBUTE TO TEACHERS

- Teachers are like the candle which consume themselves to brighten the lives of others.
- To the world you may be just a teacher but to your students you are a hero.

- Teachers encourage minds to think, hands to create and Heart to love.
- The best teachers teach from the heart not from the book.

- The mediocre teacher tells. The good teacher explains. The superior teacher demonstrates. The great teacher inspires.

• The best teacher are those who show you where to look but don't tell you what to see.

- A good teacher can inspire hope, ignite the imagination and instill a love of learning.

- The most valuable resource that all teacher have is each other. without collaboration our growth is limited to our own perspectives.

- True teachers use themselves as bridges over which they invite the students to cross them, having facilitated their crossing joyfully
- A good education can collapse, encouraging them to create bridges of their own.

- A good education can collapse, encouraging them to create bridges of their own.
- A good teacher can change everything.

TOPIC: TRIBUTE TO TEACHERS.

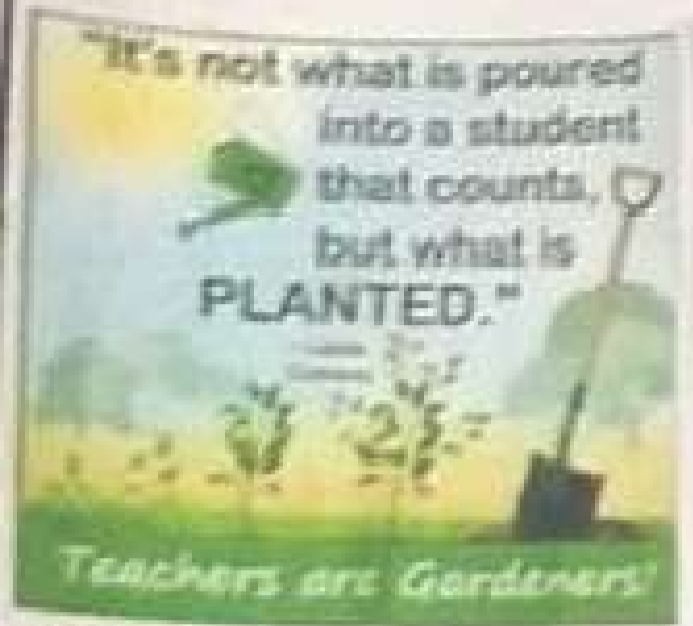

- Teachers who inspire know that teaching is like cultivating a garden... Those who would have nothing to do with thorns must never attempt to gather flowers.

- let us remember: One book, one pen, one child and one teacher can change the world.

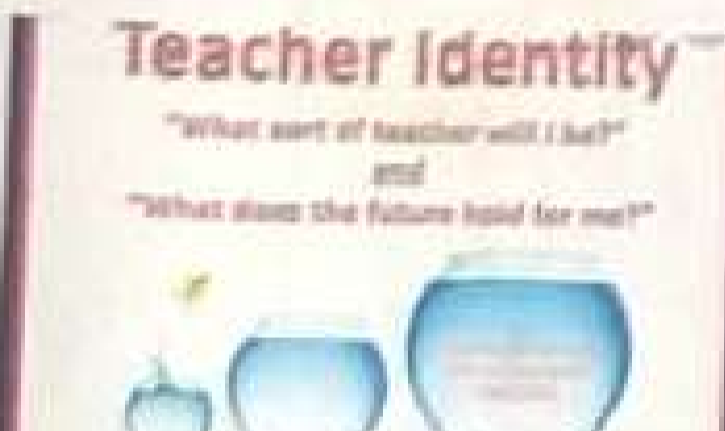

Tribute to the Teachers

It's easier to
TEACHER
HARD TO FIND
Difficult to part with
IMPOSSIBLE
FORGET

A teacher takes a hand, opens a mind, and touches a heart

Those who teach change the world over and over again

The influence of a good teacher is to

In a world where no one looks out for one another, there are only few people who always have our backs. One group of such people are 'teachers'. As it is said that 'youths are the pillars of the nation' it also justifies the truth that teachers are the only one the help build the pillars of the nation. One can only learn so much around the boundaries of the house. There are a lot of people or things that can be learned through the teachers in educational institutions. Not only do they teach us the essence of life. It is because of their hard work and dedication that we see so many educated & qualified people in the frontline and important jobs & services. Appreciation is an understatement for the praise of the teachers. They deserve a whole lot more than just appreciation. They deserve equal respect, understanding and care from the whole education fraternity, students and the nation as a whole. They are worth every celebration or 'Teachers Day', rather they should be celebrated each & every day for the kind of service that they offer and for their efforts towards moulding a better youth population hence, a better nation. Cheers to all the teachers and their existence.

Dear teachers I may forget what you said, But I'll never forget how you made me. \leftrightarrow Feel \leftrightarrow

TRIBUTE TO TEACHERS

The dictionary defines a teacher as someone who teaches.

But that hardly does justice to a profession that reaches

Far Beyond just conveying some knowledge or skill.

For there are so many roles that a teacher must fill.

Counselor, entertainer, motivational leader

Disciplinarian, comforter, accomplished mind reader

A guardian who needs to be constantly aware

A mediator who must be unbiased and fair

By whatever means necessary, teachers find a way

To meet the needs of all their students each and every day

And their work does not end with the ring of a bell

For teaching's not just a job, it's a calling as well

Teachers are the model of heart felt dedication

Their hope is that their effort will provide a firm foundation

and they know that if they're properly played their part

Their success can be found in their students' minds and hearts

A Tribute to Teachers

This is a very special week because of our teachers. Teachers are not just educators they became our friend, counselor or mentor.

Today, as we honor the great sacrifices of our teachers, for being simply there when needed the most for accepting our weakness and flaws although at times we are annoying you still never failed to enlighten us, for developing our skills, encouraging us to be afraid of trying and for molding us to be good citizen. Words will never enough to compensate everything

Teachers give us so much love & care. We appreciate you so much and we are lucky to have you as our teachers. Thankyou very much our teachers.

They Guide Us...
They Support Us...

THEME : A Tribute To Teachers

Teachers they are the gift of -the God. They are not just educators they are our counsellor or a mentor. They are our guide that encourages us to continue and pursue. They are our comforter in times of distress, when we donot have courage to tell our parents what we are going through and we need someone to discuss it with, they become our counsels who listens and guides us which situation on hand. They pick us up and let us and get back on our feet. When we are in deep sorrow they lend their shoulders for us to cry on. Nothing could be learned without the help of a teacher be it painting, lab experiments or learning new language, it is a teacher who guides a student on how to acquire particular traits to excel in any specialised or technical field.

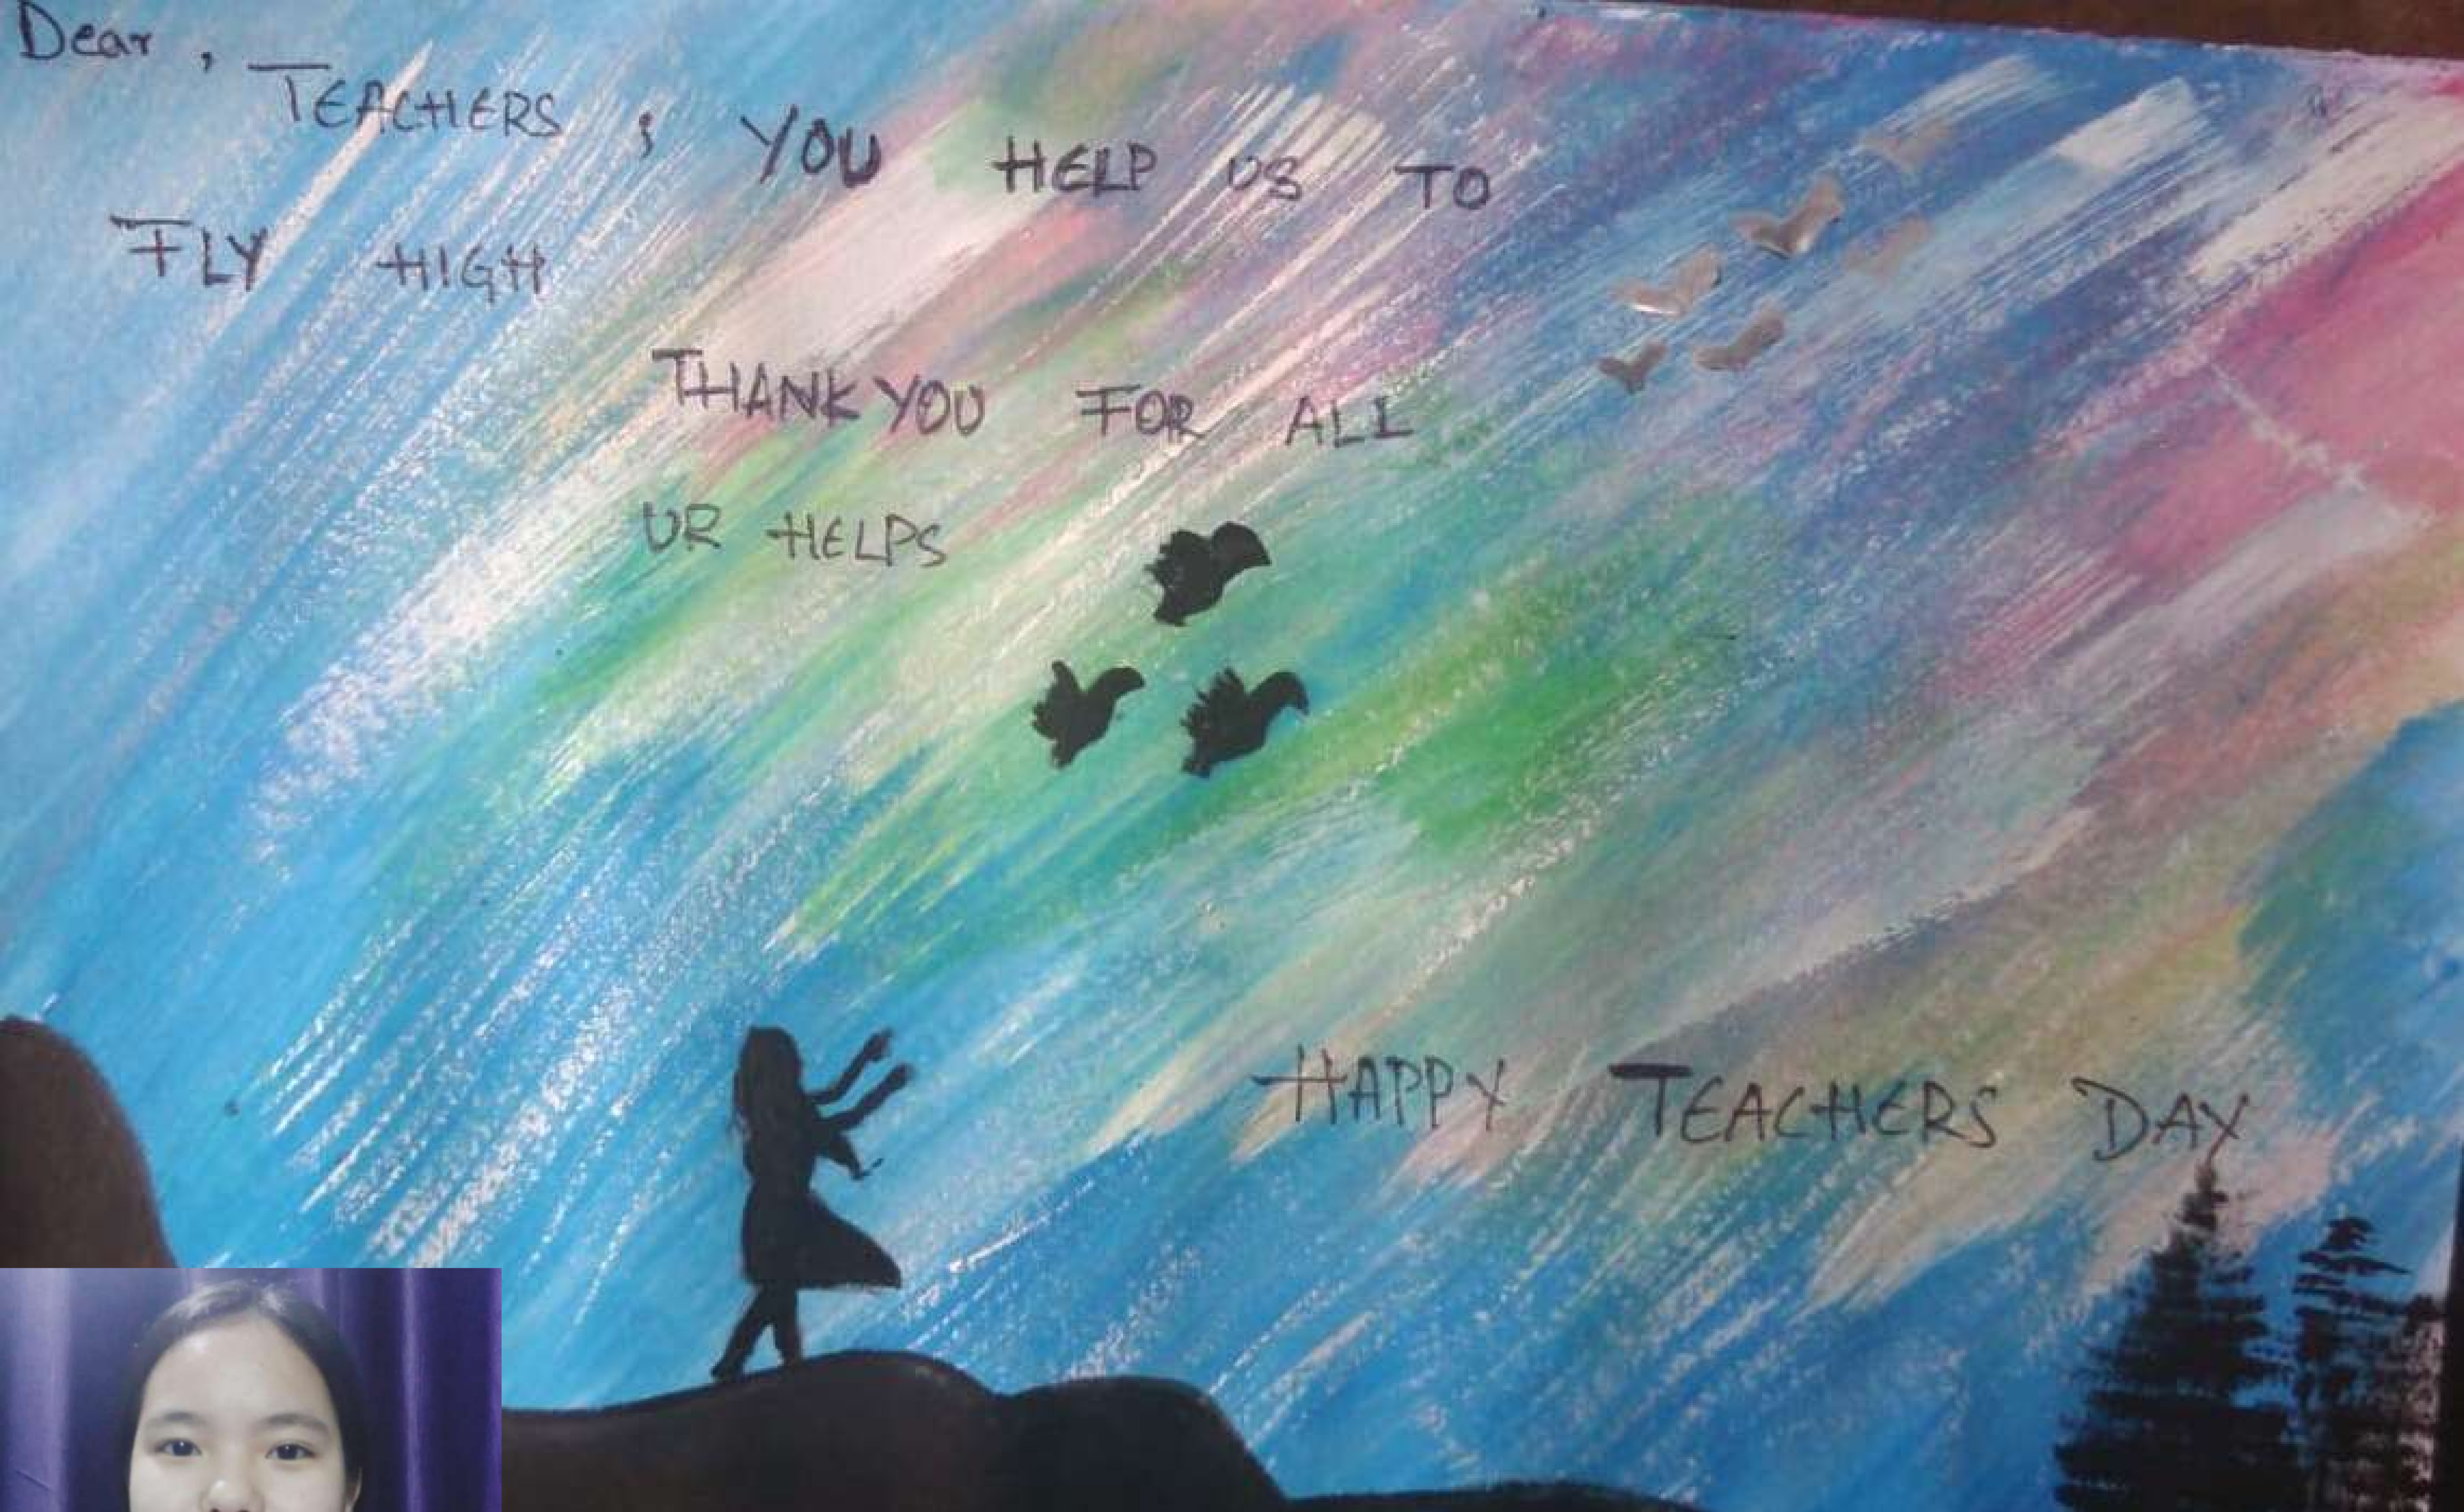

You are the spark, the inspiration, the guide, the candle of my life. I am deeply thankful that you are my teacher. Thankyou for being such a great teacher.
