Ref. No: HCS/Notification 2023-24/09

24 July 2023

Subject: Rising cases of Conjunctivitis in Itanagar Capital Region regarding,

Dear Parents/ Guardians

A report of the District medical Officer says that Conjunctivitis cases have been reported in many schools. Conjunctivitis is highly contagious and spreads rapidly.

In pursuance of the Order of DC vide No. DC/ICC/Jud-01/2023 dated 24th July 2023, Holy Cross Hr. Sec.School, Itanagar suspends classes for the students of LKG to Std.VIII from 25th to 29th July 2023. You are aware that the students have just started their Periodic Test I. They have completed only two papers. The remaining tests will be conducted for the above mentioned students when classes resume. However, Std.IX to XII will continue to write their Periodic test. The students of Std. IX-XII will write their exam in the morning shift, i.e from 9 am to 10:30 am.

What is Conjunctivitis?

Conjunctivitis, or pink eye, is an irritation or inflammation of the conjunctiva, which covers the white part of the eyeball. It can be caused by allergies or a bacterial or viral infection. Conjunctivitis can be extremely contagious and is spread by contact with eye secretions from someone who is infected.

Let us break the chain and take care of our children.
